JSC Center At-A-Glance

Major JSC Center Focus programs

Lead Human Space Exploration. We accomplish this by focusing on our four priorities: maximize use of the space station; enable the success of the Commercial Crew Program; develop Orion for future missions; and build the foundation for human missions to Mars. (Home of the Astronauts & International Space Station)

We DARE to Expand Frontiers.
WE UNITE WITH OUR PARTNERS TO COMPLETE BOLD MISSIONS.
WE EXPLORE SPACE TO BENEFIT HUMANITY.

JSC is active in the Artemis/Gateway Programs

Gateway Program which will develop a small spaceship that will orbit around the Moon. This spaceship will be a temporary home and office for the astronaut and will provide laboratories for science and research and more.
Orion is spacecraft is exploration vehicle that will carry the crew to space, provide emergency abort capabilities, sustain the crew during space travel.

Commercial Lunar Payload Services to provide delivery of science and technology integration payloads, to the lunar surface.
